

North of England and Midlands Regional Meeting

Driving Efficient Dairy Processes

Held in partnership with BFBi and Reaseheath College

Guest speakers:

- Water & chemical reduction in CIP - Kersia
- Nano/water filtration – Tetrapak
- Validation of process – Foss
- Effluent treatment – WASE

Venue: Reaseheath College, Nantwich

Date: Wednesday, 10th September 2025

Itinerary: 1pm: Networking and registration.
2pm: Presentations (25 mins each to include Q&A).
4pm: Tour of Reaseheath Food Centre.
6pm onwards: Informal meal/networking at The Leopard, Nantwich (self-funded).

Why Attend?

- Hear from experts on practical ways to boost efficiency and sustainability
- Learn about innovative technologies in water usage, filtration, validation, and treatment
- Network with industry professionals and solution providers
- Tour a state-of-the-art training and processing facility

Registration

This seminar is free to attend but places are limited. Pre-registration is essential to secure your spot and ensure catering arrangements. Trade stands are available at £150+ vat. Email execdirector@sdt.org for booking.
